SANDWICH CHAPTER OF THE AMERICAN RED CROSS

The Sandwich Chapter of the American Red Cross is pleased to report that our quota of garments for the war refugees has been made and sent to Europe. The women of Sandwich, Moultonboro, and Center Harbor gave very generously of their time to make 8 men's sweaters, 4 women's sweaters, 8 children's sweaters, 4 women's heavy dresses and 8 girls' heavy dresses.

One half of every dollar donated to the Red Cross is retained in Sandwich. This year the money was used to sponsor a dental clinic, five dollars was voted for hot lunches at the Center School during the winter months, and 10 gallons of cod liver oil was purchased for Miss Allen to distribute among the children in the Grammar schools of this town.

There were 54 new pieces of clothing made and given to needy families. This included sheets, pillow cases, diapers, baby clothes and blankets. Thirty-five second-hand articles consisting of shoes, bath robes, scarfs, dresses, children's suits, and underwear were donated to the Chapter, and these were distributed in the community.

The Red Cross can not do this work without your help. The Sandwich Chapter is, therefore, very grateful to the people who enrolled in the Red Cross, to the women who gave their time to sew and knit for war refugees and needy families in Sandwich, and to those who generously gave second hand articles.

VERA T. PRESBY,
Secretary.

REPORT OF SUPERINTENDENT OF SCHOOLS

EDUCATIONAL POLICY

We hear and read a great deal these days about democracy. The experience of European countries who have tried democracy and failed proves to us that democracy is not just a form of government with a written constitution. It is a way of thinking and believing on the part of people. This understanding and faith, vital to our country's existence, can be fostered in our public schools. One of the purposes of education is to develop a loyalty to the American way of life.

Travelers in Germany and Italy from this country find the youth of those nations full of enthusiasm for their leaders and are disappointed at the thought that there is no such enthusiasm for their country on the part of children in the United States. We tend to take our heritage of freedom as a matter of course, and are likely to lose the realization that it is a precious and costly thing. One educator has said, "To make democracy work we must make a religion out of it."

Experience has shown that it is not enough to talk about good citizenship and to understand the workings of our town meetings, national elections, and the duties of various officers. Our young people must learn to be citizens by practicing good citizenship. The school that can permit boys and girls to exercise self-control, to make their own decisions, to learn to work with others and not to shirk responsibility, is doing its part to make America a better country to live in.

RECENT CHANGES IN SCHOOL LAWS

At the last session of the General Court two important changes in the state educational laws were made. One of these dealt with the education of handicapped children and the other with regulations affecting school transportation.

Heretofore pupils who were handicapped through lameness, deafness, blindness, or other physical defect have been excused from school attendance on that account. Any education which they received has been such as was provided for them at their parents' expense. The new law

requires that such children have either transportation to school (no matter how near they may live to the school building) or, if they are unable to attend school, instruction must be provided for them at home at the expense of the district. This requirement does not apply in cases of temporary handicaps such as a broken leg or illness but only to those whose handicap is permanent.

The other new law has given to the State Motor Vehicle Department the authority to make and enforce regulations regarding school buses. Such regulations for this school year (until July 1, 1940) have recently been issued. It is expected that these regulations will be changed from year to year in order to provide greater safety and comfort for children who are carried to school.

THE SCHOOL NURSE

Miss Eva Nelson who has served us as school nurse for the past two years was unable to return to her duties in September because of illness. Her work has been taken over by Miss Ruth Allen. Miss Allen comes to us from Dover and has had several years of experience in this work.

ACKNOWLEDGEMENTS

There is a fine spirit of cooperation in Sandwich shown by the school board, teachers, school nurse, pupils, and other people of the community. This is much appreciated. Special thanks is due the Parent-Teachers' Association, Mr. and Mrs. Cleveland Weed, the Red Cross, and the Sandwich Fair Association for gifts of money and other assistance. The school lunches this year have been especially successful because of the generous cooperation of many people who have helped to finance this project.

Respectfully submitted,

ALMON W. BUSHNELL,
Superintendent.

REPORT OF SCHOOL NURSE

TOWN OF SANDWICH

This report is a summary of the work done by the school nurse from September 5, 1939 to January 1, 1940.

Pupils inspected	152
Visits to schools	60
Visits to homes	15

Dr. R. H. Thompson examined forty-five pupils—first and fifth grades in all schools, and second and sixth grades in three schools. These present second and sixth grades represent the first and fifth grades of last year, which were not examined, due to Miss Nelson's illness. Dr. Robert Quimby examined all pupils in the Quimby School. Urine examinations were also done on all pupils in this school.

The Sandwich Red Cross gave five gallons of codliver oil, which meant that forty pints of "bottled sunshine" were distributed to the school children of Sandwich. This is being very well taken in school.

Nineteen school children are receiving one pint of milk daily, in school. This was made possible by donations of money and milk by interested townspeople. The Sandwich Fair Association donated fifty dollars for this purpose, and our many and grateful thanks go to this Association for its most valuable gift.

Food for lunches in the schools is being supplemented by fresh and canned fruits, and butter, from Surplus Commodities. This is a splendid contribution to better well-balanced meals in schools.

Dental and tonsillectomy clinics are being planned to take place before the end of the school year.

The cooperation of the superintendent, members of the school board, teachers and parents of the community has been very much appreciated.

Respectfully submitted,

RUTH E. ALLEN, R.N.
